Re: Amendment of
Section 73.202(b)
Table of Allotments
FM Broadcast Stations
Gillette, Wyoming
(MM Docket No. 96-252, RM-8959,
Montgomery Broadcasting Limited Liability Company)

Dear Mr. Caton:

Submitted herewith for filing, on behalf of Montgomery Broadcasting Limited Liability Company, Petitioner in the above-captioned FM channel allotment rulemaking proceeding, are an original and four (4) copies of its Comments in response to the Notice of Proposed Rule Making in MM Docket No. 96-252 (RM-8959), ___ FCC Rcd ___, DA 96-2047 (Allocations Branch, Policy and Rules Division, Mass Media Bureau, released December 13, 1996). The enclosed Comments of Montgomery Broadcasting Limited Liability Company are being submitted herewith pursuant to Paragraphs 3 et al of the above-referenced Notice of Proposed Rule Making, and pursuant to the provisions of the Appendix to that Notice of Proposed Rule Making, and to the provisions of Sections 1.415 and 1.420 of the Commission's Rules.

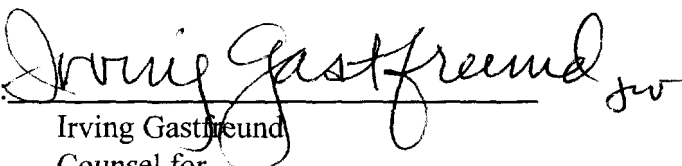

KAYE, SCHOLER, FIERMAN, HAYS & HANDLER, LLP

COMMENTS Of
MONTGOMERY BROADCASTING LIMITED LIABILITY COMPANY

MONTGOMERY BROADCASTING LIMITED LIABILITY COMPANY

("Montgomery"), pursuant to Sections 73.202(b), 1.415 and 1.420 of the Commission's Rules, and pursuant to Section 303 of the Communications Act of 1934, as amended, and pursuant to the applicable provisions of the Notice of Proposed Rule Making in MM Docket No. 96-252 (RM-8959), ___ FCC Rcd ___, DA 96-2047 (Allocations Branch, Policy and Rules Division, Mass Media Bureau, released December 13, 1996), by its counsel, hereby submits its instant Comments in response to the above-referenced Notice of Proposed Rulemaking in the above-captioned rulemaking proceeding, which proposes an amendment to the FM Table of Allotments, as set forth in Section 73.202(b) of the Commission's Rules, to add FM Channel 249A to Gillette, Wyoming. In support whereof, it is shown as follows:

On November 7, 1996, Montgomery filed its Petition For Rulemaking in the above-captioned proceeding, in which Montgomery proposed the allotment of Channel 249A to the community of Gillette, Wyoming, as that community's third local FM transmission service.

Montgomery therein demonstrated that the community of Gillette, Wyoming, had need for an additional commercial FM channel in that community and also expressed a present intent of submitting an application to the Commission for a construction permit for a new FM station on Channel 249A in Gillette, Wyoming, if the Commission were to assign that channel there. Furthermore, in that Petition For Rulemaking, Montgomery committed itself to construct the station on FM Channel 249A in Gillette, Wyoming, as expeditiously as possible if its application for a construction permit for Channel 249A in Gillette were granted. In addition, submitted together with Montgomery's aforementioned Petition For Rulemaking was an attached Engineering Statement which demonstrated that FM Channel 249A can be assigned at the reference point specified in that Engineering Statement, and still be in compliance with all applicable Commission channel separation requirements and applicable Commission Rules. Accordingly, Montgomery's above-referenced Petition for Rulemaking demonstrated that the allocation of FM Channel 249A to Gillette, Wyoming, would be in the public interest, and Montgomery respectfully requested that the Commission institute rulemaking proceedings contemplating allotment of FM Channel 249A to Gillette, Wyoming.

As noted above, on December 13, 1996, the Allocations Branch of the Mass Media Bureau's Policy and Rules Division issued its Notice of Proposed Rule Making in MM Docket No. 96-252 (RM-8959), __ FCC Rcd __, DA 96-2047 (Allocations Branch, Policy and Rules Division, Mass Media Bureau, released December 13, 1996), involving Montgomery's rulemaking proposal. The Allocations Branch therein formally proposed that FM Channel 249A

be allotted to Gillette, Wyoming, as that community's third local commercial FM transmission service.

The Notice of Proposed Rule Making in MM Docket No. 96-252 (RM-8959) involving Channel 249A in Gillette, Wyoming and the Appendix to that Notice require the Petitioner herein, Montgomery, to file its instant Comments in support of its proposal. Its instant Comments are being filed to reaffirm that, if FM Channel 249A is allotted, as proposed, to Gillette, Wyoming, Montgomery intends to file an application for Channel 249A in Gillette, Wyoming, within the appropriate filing window, and, if the latter application is granted, Montgomery intends to construct the station promptly. Montgomery hereby incorporates by reference the contents of its November 7, 1996 Petition For Rulemaking in this proceeding and of the Engineering Statement annexed thereto.

Montgomery is aware that the Commission's FM channel allotment priorities are: (1) first aural service; (2) second aural service; (3) first local service, and (4) other public interest matters. Co-equal weight is given to priorities (2) and (3) above. See Revision of FM Assignment Policies and Procedures, 90 FCC 2d 88, 92 (1982); Modification of FM and TV Authorizations To Specify a New Community of License, 4 FCC Rcd 4870, 4876 n. 8 (1989). In recognition of the foregoing, Montgomery hereby reaffirms that the community of Gillette, Wyoming, is a separate community deserving of an additional local outlet of FM expression. In this regard, and as noted previously by Montgomery in its Petition For Rulemaking in this proceeding, the community of Gillette, Wyoming, had a population (based on 1990 U.S. Census figures) of

17,635, which represents an increase of 5,501 additional residents since 1980 (i.e., a 45 percent population growth factor between 1980 and 1990). While the Commission's Table of FM Channel Allotments reflects that there are presently two commercial FM broadcasting channels allotted to Gillette, Wyoming, that community and its surrounding area can well support and deserves an additional commercial FM channel allotment, as has been proposed by Montgomery in this proceeding.

In this latter regard, it should be noted that the city of Gillette, Wyoming is an incorporated place and a distinct community. Annexed hereto as Exhibit 1 are photocopies of certain key pages from the World Wide Web pages of the U.S. Census Bureau concerning Gillette, Wyoming, wherein certain critical demographic information regarding Gillette, Wyoming, is listed.

Furthermore, it is respectfully submitted that the city of Gillette, Wyoming is very much in need of an additional, independently-owned, operated and programming outlet of local FM self-expression, since the City of Gillette, Wyoming serves as the "hub" of energy development (both coal and oil) in the State of Wyoming. Furthermore, Gillette, Wyoming is the county seat of Campbell County, Wyoming, which is the wealthiest county in the State of Wyoming, based on assessed valuation.

Based on all the foregoing, the public interest, convenience and necessity would best be served by expeditious allotment of FM Channel 249A to Gillette, Wyoming, as that community's

third local commercial transmission service, as proposed by the Allocations Branch in its Notice of Proposed Rule Making in the above-captioned proceeding.

Respectfully submitted

Coal Production

Gillette is known as the Energy Capital of the nation, a reference to the prominence of mineral industries in the area. The area produces more than 85 percent of Wyoming's coal. Campbell County also leads the state in oil production and has significant reserves of various other minerals.

Wyoming leads the nation in coal production, mining about 25 percent of all U.S. coal in 1995. Over 90 percent of Wyoming's total production comes from the Powder River Basin of northeastern Wyoming and south-central Montana. In fact, the Powder River Basin has the largest strippable reserve of compliant coal in the United States.

There are currently 16 operating coal mines in Campbell County producing more than 200 million tons of coal each year. Most Powder River Basin coal meets the "low sulfur" standards originally set by the Clean Air Act.

Some of the coal mined in Campbell County is burned in local power plants. About 88 percent of

Wyoming's coal production, however, is shipped out of the state, primarily on railroads. Burlington Northern is the largest single carrier, followed by the Union Pacific. Wyoming unit trains range from about 100 to 120 rail cars carrying about 12,500 tons of coal. As a rule of thumb, unit trains will have a gross weight of about 16,500 tons and will be 1.25 miles in length. Each train also requires three to five locomotives totaling 10,000 to 15,000 horsepower. The current train size is 133 cars with an estimated 100 trains leaving the Powder River Basin daily.

Coal mine tours are offered weekdays free of charge from Memorial Day through Labor Day compliments of Cyprus Amax Coal West and the Gillette Convention & Visitors Bureau.

Agriculture

Gillette and Campbell County were settled by the homesteaders and ranchers of the 1800s. Still today cattle, sheep and buffalo roam the high plains of Campbell County.

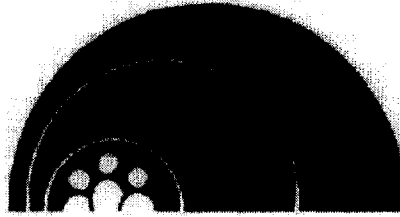

Throughout our county there are more than 300 farms and ranches, having an average of 4,500 acres. The vast majority of our cropland is planted with wheat, barley, oats and hay, much of which is utilized for feed. Our growing season is 125 days, and is supported by an average rainfall of 16", with the northern portion of Campbell County receiving slightly more precipitation than the southern half. Farmers and ranchers usually experience the initial winter's frost during the first week in October and expect the last frost of the season to occur in late May. During the winter, about 66" of snow falls, however drainage is not a concern with the Little Powder River Belle Fourche River and Cheyenne River providing ample collection facilities for snow run-off.

Estimated Livestock Population:

Cattle	72,000
Sheep	40,000

Estimated Agriculture Production:

Hay	46,000 acres
Wheat	16,000 acres
Oats	2,800 acres
Barley	2,400 acres

Campbell County Chamber of Commerce

History

In 1911, Campbell County was created from portions of Weston and Crook counties, which join to the east. Gillette, the county seat and largest incorporated city in Campbell County, was named for Edward Gillette, who was a surveyor and engineer for the Chicago, Burlington and Quincy Railroad. The town was founded in 1891 during the railroad construction period. Wright, Wyoming, Campbell County's newest town, was incorporated in January, 1985. Wright is located in southern Campbell County at the intersection of State Hwy. 59 South and State Hwy. 387 West.

Climate

Campbell County is located on broad, gently-rolling plains in northeastern Wyoming, midway between the Black Hills of South Dakota to the east and the Big Horn Mountains to the west. Gillette's elevation is 4,550 feet. Wright's elevation is 5,000 feet.

Climate Data	Jan.	July

Lodging

There are about 1,100 motel rooms in Gillette and 27 in Wright. Most of the motels are associated with major motel chains. There are also two campgrounds and three bed & breakfast facilities. For a complete listing with phone numbers, go to : XXXXXX

Dining

There are more than 40 restaurants to choose from when dining out in Gillette. Cuisine choices include American, Chinese, and Mexican, just to name a few. For a complete listing with phone numbers, go to: XXXXXX

Schools

Campbell County School District

Campbell County School District (CCSD) serves all of Campbell County. It is the third largest school district in Wyoming, providing a broad academic program for over 8,000 K-12 students. Campbell County High School was one of just 11 schools in the nation to receive a National Drug-Free Schools and Communities Award in 1992. The District boasts an excellent planetarium and a nationally honored Aquatic Center.

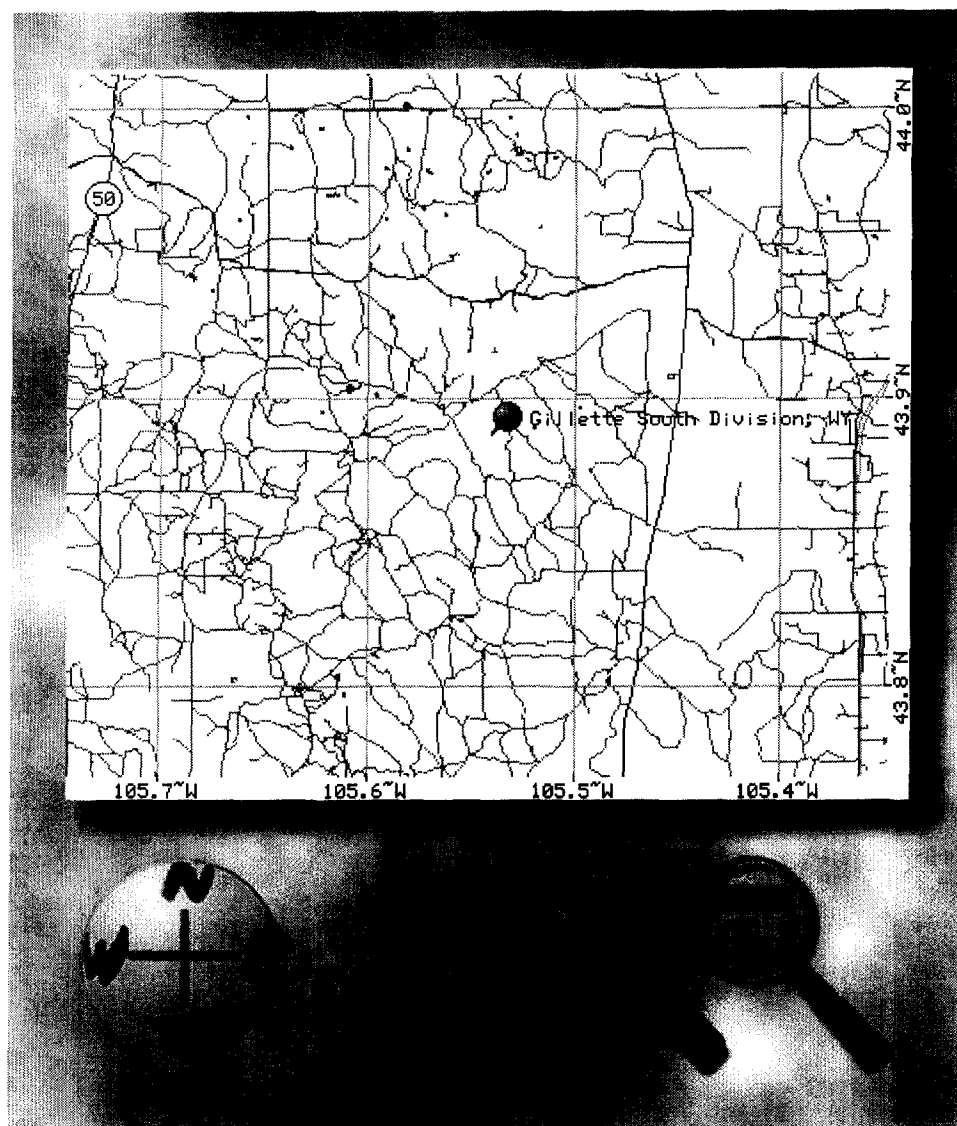

Campbell County students consistently score well above the national average on standardized achievement tests such as the Scholastic Aptitude Test and the Iowa Test of Basic Skills. A comprehensive School-To-Careers program has been developed to assist students Kindergarten through Lifelong Learning. The ultimate goal is to have every student have work-based experience before graduation.

The CCSD athletics program offers a wide variety in which students can participate. At the high school level this includes track, soccer, gymnastics, wrestling, basketball, tennis, football, swimming and diving, volleyball, and cross-country. Students also participate in academic competitions including the Knowledge & Academic Decathlon. The Campbell County High School Speech & Debate team has been perennial champions sending competitors to the national competition annually. For more information, see the school district's home page at XXXXXX

Colleges

Wyoming's higher education consists of one state university and seven community colleges. The Gillette Campus is one of two campuses in the Northern Wyoming Community College District located in northeastern Wyoming. The mission of the Gillette Campus is to fully serve the post-secondary educational needs of Gillette and Campbell County. In accomplishing this mission, the focus is on transfer education, vocational/technical education, professional enhancement and growth opportunities. A fully accredited and transferable two-year degree program is available at the Gillette Campus in over 24 major academic areas. The Gillette Campus also provides certificate and degree training in many vocational and technical fields to offer entry-level job skills to the graduates.

The Campus includes a comprehensive Business and Industry Center to serve the needs of the community and also to assist local businesses and industries with their professional and employee training programs.
